

MASTER CONTROL OPERATOR POSITION

The Telecommunications Board of NKY is accepting resumes for the position of Master Control Operator for its Community Access TV studio. We are looking for someone with exceptional communication skills, a professional demeanor, and positive attitude. Additionally, the desired candidate will have the ability to take a creative initiative while working flexibly in a team environment.

Primary duties include

- Operating playback facilities for local access channels
- Assisting with weekly productions in and out of the studio
- Training and assisting part-time employees as well as community producers in field/studio production along with editing
- Basic video/tech troubleshooting

Bachelor's degree in Radio/TV/Media Studies preferred and minimum one year of related experience required. Prior knowledge of cable access, sports television production and/or other professional video experience desirable. Applicants must have reliable transportation and be willing to work 2nd shift with occasional required overtime & weekends.

F/T Position, Salary: \$33K plus excellent health, dental, and vision benefits, state pension, vacation.
